From molecular biology to
multidisciplinary care of patients

Cystic Fibrosis in the 21st Century

Editors:
A. Bush
E.W.F.W. Alton
J.C. Davies
U. Griesenbach
A. Jaffe

Respiratory System, Pediatrics, Cell Biology, Gastroenterology,
Microbiology, Molecular Biology, Internal Medicine, Nursing

Contents

Part One: The Basics

- The CFTR Gene: Structure, Mutations and Specific Therapeutic Approaches: **Nissim-Rafinia, M.; Linde, L.; Kerem, B.**
- Exquisite and Multi-Level Regulation of CFTR Expression: **Trezise, A.E.O.**
- Intracellular Processing of CFTR: **Barriere, H.; Lukacs, G.L.**
- Structure of the Cystic Fibrosis Transmembrane Conductance Regulator: **Stratford, F.L.L.; Bear, C.E.**
- Function of CFTR Protein: Ion Transport: **Chen, J-H.; Cai, Z.; Li, H.; Sheppard, D.N.**
- Cystic Fibrosis. Function of CFTR Protein: Regulatory Functions: **Coakley, R.D.; Stutts, M.J.**
- Function of CFTR Protein: Developmental Role: **Gill, D.; Larson, J.E.**
- Genotype-Phenotype Correlations in Cystic Fibrosis: **Dorfmann, R.; Zielenski, J.**
- Diagnosis of Cystic Fibrosis, CFTR-Related Disease and Screening: **Karczeski, B.A.; Cutting, G.R.**
- CF Modifier Genes: **Griesenbach, U.; Alton, E.W.F.W.; Davies J.C.**
- Animal Models: **Dorin, J.R.**
- In vitro/ex vivo Fluorescence Assays of CFTR Chloride Channel Function: **Verkman, A.S.; Galletta, L.J.V.**
- In vivo Measurement of Airway Potential Difference to Assess CFTR Function in Man: **Middleton, P.; Alton, E.W.F.W.**
- Arrays and Proteomics: **Ogilvie, V.; MacGregor, G.**

Part Two: The Airway

- Pathogenesis of Pulmonary Disease in Cystic Fibrosis: **Mall, M.; Boucher, R.C.**
- Infection vs Inflammation: **Ziady, A.G.; Davis, P.B.**
- Pseudomonas aeruginosa*: Clinical Research: **Armstrong, D.**
- Pseudomonas aeruginosa*: Basic Research: **Scott, F.W.; Pitt, T.L.**
- Other Gram-Negative Organisms – *Burkholderia cepacia* Complex and *Stenotrophomonas maltophilia*: **Govan, J.R.W.**
- Staphylococcus aureus* and MRSA: **Conway, S.; Denton, M.**
- Nontuberculous Mycobacterial Lung Disease in Patients with Cystic Fibrosis: **Griffith, D.E.**
- Respiratory Fungal Infections and Allergic Bronchopulmonary Aspergillosis: **Que, C.; Geddes, D.**
- Advanced Disease Management and Advances in Transplant Medicine: **Carby, M.R.; Hodson, M.E.**
- Current and Novel Antimicrobial Approaches: **Davies, J.C.**
- Anti-Inflammatory Agents – A Clinical Perspective: **Hilliard, T.N.; Balfour-Lynn, I.M.**
- Recent Advances in Infant and Pre-School Lung Function: **Ranganathan, S.**
- Recent Advances in Imaging: **Oikonomou, A.; Hansell, D.M.**

- New Pharmacological Approaches for Treatment of Cystic Fibrosis: **Rubenstein, R.C.**
- Gene and Stem Cell Therapy: **Boyd, A.C.**

Part Three: Digestive Tract

- Gut Disease: Clinical Manifestations, Pathophysiology, Current and New Treatments: **Taylor, C.J.; Hardcastle, J.**
- Pancreatic Involvement: Clinical Manifestations, Pathophysiology and New Treatments: **Lindley, K.J.**
- Cystic Fibrosis: Liver Disease: **Westaby, D.**

Part Four: Other Organs

- Fertility, Contraception, Incontinence and Pregnancy: **Thorpe-Beeston, J.G.**
- Arthritis, Vasculitis and Bone Disease: **Elkin, S.**
- Diabetes in Cystic Fibrosis: **Bridges, N.; Spowart, K.**

Part Five: Multidisciplinary Care

- Challenges for Nurses: **Madge, S.**
- Dietetics: **Wolfe, S.; Morton, A.**
- Physiotherapy: **Pryor, J.A.; Main, E.; Agent, P.; Bradley, J.M.**
- Psychological Interventions: **Bryon, M.**

Part Six: The Future

- The Future: **Bush, A.; Griesenbach, U.; Davies, J.C.; Alton, E.W.F.W.; Jaffe, A.**
